

## HALO SEALS

The HALO Seal was specifically developed for casualties with excessive bleeding, heavy perspiration, or very wet and extreme environments. The HALO seal features a highly aggressive adhesive, enabling it to conform and adhere to all contours of a patient's body; durable packaging and material which maintains the product's integrity when folded or crumpled; and a large pull tab that facilitates easy, quick application. Used by many military, EMS and law enforcement services domestically and internationally, the HALO seal is manufactured in the US, and exclusive to Bound Tree Medical.

- Each package contains two (2) seals to treat both entrance and exit wounds
- Total occlusion with excessive blood, dirt or heavy perspiration present
- Large pull tabs to facilitate removal or venting of wound
- Adhesive reseals after venting
- No residue once removed
- Durable protective packaging
- Integrity maintained when folded
- Performing temperature range up to 140°F
- 3-year shelf life
- Dimensions: 6.5" x 5.5"
- Manufactured in the USA
- No latex used in the manufacturing of this product

## HALO XL TRAUMA DRESSING

The HALO XL Trauma Dressing was specifically developed for casualties with excessive bleeding, heavy perspiration, or very wet and extreme environments. The Halo XL also performs without loss of adhesion in extreme temperatures. Used by many military and law enforcement services domestically and internationally, the HALO XL is manufactured in the US, and exclusive to Bound Tree Medical.

- Each package contains one (1) seal
- Total occlusion with excessive blood, dirt or heavy perspiration present
- Dimensions: 8.5" x 12"
- Manufactured in the USA

## HALO VENT

The HALO Vent is a non-resorbable and non-sterile occlusive wound dressing intended to cover a wound, to provide or support a moist wound environment and to allow the release of gases and fluids. Includes one vented seal and one non-vented seal.
