The North American Rescue Emergency Survival Wrap is the ideal solution for a small, lightweight survival wrap as it balances performance, durability and size.

The wrap reflects up to 90% of radiant body heat and is constructed of a combination of mylar and a tear resistant polyethylene fabric material.

The wrap is wind and waterproof, further aiding in retaining warmth.

The high-visibility, reversible orange and silver color helps rescuers find you during an emergency situation.

The North American Rescue Emergency Survival Wrap is an essential piece of equipment in a compact package to help maintain body heat.

- Reflects up to 90% of radiant body heat
- Lightweight, durable, laminated polyethylene
- Large 60 in. x 90 in. wrap for full body coverage
- Wind and waterproof
- High visibility, reversible orange & silver color
