The North American Rescue Talon® Wheeled Litter Carrier is the lightest wheeled litter cart on the market for single person transport to & from MedEVAC vehicles, aircraft, etc.

The Wheeled Litter Carrier has a locking clamp system to keep the litter firmly in place, and it allows for different litter widths.

Compatible with Talon, Raven, MedEvac & T3 litters, the Wheeled Litter Carrier also performs as litter stand in the field due to its unique wheel locking system.

A rugged, stackable storage case with wheels is included with the Wheeled Litter Carrier for easy storage and transport. The Wheeled Litter Carrier is quick and easy to deploy or disassemble for storage.

High strength materials allow for a payload of 550 lbs, and rugged, high-strength wheels are suitable for most environments and terrains.
