

XTRACT[®] A-FLOAT

COMPACT CASUALTY FLOATATION

The Xtract[®]A-Float floatation platform;

A low cube, lightweight casualty floatation solution, providing a viable option to be carried on operations.

Side and head floatation provide stability and support for the casualty and keeps their head out of the water.

Separate inflation panels allow for Xtract[®]A-Float to be used as an insulation mattress, maximising its utility.

***Xtract[®]A-Float will support a 250lbs casualty,
weighs only 4lbs & packs down to 10" x 6"***
