

# Pocket BVM

## Bag Valve Mask With O2 Tubing

---

---

Item No:	BR-00212
Manufacturer:	Micro BVM International Company Ltd.
Certificates:	CE, Latex Free
Package Size:	13,4 x 7cm
Color:	N/A
Country of origin:	China
NSN no:	6515-01-593-4841
Tariff:	30059099
Weight:	488g

The Pocket BVM with O2 tubing has become the BVM of choice amongst military units and has been adopted by the U.S. and German militaries, NATO forces and other armies. The advantage of the O2 tubing is that paramedics can quickly hook up to an oxygen tank and provide superior respiratory support.

The Pocket BVM with O2 tubing contains a bag, mask, patient valve, reservoir bag, 2 cm oxygen drive lines and a 167 mm oxygen tube, all within a singular compact unit. It therefore perfectly fits into any military paramedic kit and enables paramedics to save valuable time and easily access all equipment necessary to perform an emergency field resuscitation procedure (with and without an oxygen supply).
