Celox™ Haemostatic Granules can stop life threatening bleeding fast.

Significantly reduces blood loss
Treats irregular shaped wounds and multiple injuries
Easy to use
Celox™ has been proven to stop life threatening bleeding and has been on sale for over 10 years.
Celox Granules are safe and effective and registered as class III CE marked medical devices.

In an independent trial, when compared to Quikclot and standard gauze, Celox™ Granules was the only product to give 100% survival and was also the only product to give robust clotting with no rebleeding.
