Certificates:	CE, Sterile
Size:	8 cm x 4 m
Color:	White
Country of origin:	China
NSN no:	N/A
Tariff:	30059050
Weight:	10 g

Designed for serious bleeding. Highly absorbent trauma dressing. Vacuum compressed pack size.

Also known as 'mines' dressings because of their long association of use in the mining industry, these dressings are intended to provide a thick absorbent sterile pad, while taking up as little room as possible.

Compressed and packaged into a compact wrapping, these dressings may look small, but are still up to the job of dealing with moderate injuries.
