Size:	65 x 40 x 13 mm
Color:	Black
Country of origin:	USA
NSN no:	N/A
Tariff:	99900995
Weight:	35 g

The Ripper (RS-1) unit is made in the US. The blades are made from high quality steel that is corrosion resistant. They receive a proprietary treatment to improve cutting ability and edge retention. This makes the RS-1 last up to 5 times longer than standard carbon steel blades.

The Trauma Shears are one of those things that don't cost very much but become invaluable when you really need them. The CTOMS™ Trauma Shears come in subdued black blades with your choice of handle color.
