Telespro-Cloak is suitable for daily use in patient transportation. Patients, who are sitting in a carrying chair can easily and efficiently be protected with a cloak.

In serious traffic accidents the patient protection from weather conditions and views of the by-standers can be done efficiently with the Telespro-Cloak. Patient and the car seat fit easily inside the cloak.

The material is breathable, moisture and wind-proof Gore Windstopper fabric. The cloak is washable in 60° C.
