The Mission Go Bag (MGB) can easily be reconfigured as a shoulder bag — and with a fold and a snap it can be converted into a waist/fanny pack that rides below body armor.

Stowing the shoulder straps in the rear pocket configures the bag as a briefcase utilizing stowable carrying handles or as a large vest pouch for front or back using the PALS/MOLLE compatible Flex-Tab™ attachment system (Patented). These tabs can also secure the bag to a larger pack.

A contoured shoulder strap, padded back plate and sleek design with rounded edges provide the comfort required for long missions.
