

Panel, Access Rapid Modul

Primary Care

Item No:	BA-112
Manufacturer:	SOTECH
Certificates:	N/A
Size Folded:	51 x 48 cm
Size Expanded:	51 x 114 cm
Color:	Black
Country of origin:	USA
NSN no:	6530-01-518-0118
Tariff:	39232990
Weight:	4,5 kg

Designed by ARSOF medical operators and developed by S.O.Tech, the RAMMP is fully customizable panel for trauma care providers working in fixed or temporary facilities or on ground or air mobility platforms.

The system offers the utmost inflexibility to bridge the gap between aid bags and larger storage containers with a streamlined, highly organized modular system.

Systems focus on tactical deployment flexibility and adaptability to any circumstances where medical aid will be administered. Features also include a series of small, medium and large pouches which are removable and interchangeable, accommodating mission specific customization of medical supplies.

The RAMMP panel is PALS covered so medical operators can add or reconfigure pouches to suit mission needs. A center panel zipper allows it to be split and hung in two smaller areas.

S.O.Tech's interchangeable, high visibility Trauma labels allow for easy Trauma supply category recognition.
