## Benefits of the 2nd Generation:

- New design adapts the device to fit a wide variety of body types.
- New design features an even lower profile. No imprinting under the officer's duty shirt!
- Central placement provides the officer instant ambidextrous access to their medical kit.
- Allows the uniformed officer to carry a complete medical kit on them at all times.
- Creates instant recognition among officers of the placement of medical gear.
- Instant access to trauma gear saves precious time, allowing the officer to provide self-aid and responding officers to provide buddy-aid in the case of a serious injury.
