Tariff:	39232990
Weight:	397 g

This compact Patrol Trauma Response Pouch (PTRP) takes up minimal space and locates critical equipment on the provider where it is most needed.

The PTRP can be a stand-alone pouch, or with the optional pouch-attaching strap.

The PTRP has a divider to keep the SOF Tactical Tourniquet Wide separate from the Esmark Bandage, compressed gauze, and Chest Seal.

There is also individual storage for one pair of gloves.
