QuickClot Combat Gauze Z-Fold is a soft, white, sterile, nonwoven gauze impregnated with kaolin, an inert mineral that does not contain animal or human proteins or botanicals.

QuickClot Combat Gauze Z-Fold is an improvement on the original QuikClot Combat Gauze. As a result of feedback from the US Military, Z-Medica improved the QuikClot Combat Gauze product by making it z-folded, vacuum packed, and with an x-ray detectable strip.

The QuikClot Combat Gauze Z-Fold is even easier to apply since the gauze is in a z-fold format, which makes packing wounds easier and eliminates the risk of the roll falling away and getting contaminated.
