

Goal 15: LIFE ON LAND

Subgoal 15.2 Stop deforestation and restore damaged forests: AP Services has invested in a 57 acres land and planted 5.154 pinetrees, 10.292 deciduous trees and 10.579 different types of bushes.

Subgoal 15.5 Protect biodiversity and natural habitats: The 1.6 acres newly planted forrest, will enhance the local biodiversity and create areas for wildlife to feed, breed and hide.

Subgoal 15.a Mobilize funding to protect and use nature sustainably: This year we changed to AP Pension, all our employees has received training in how to make green investments with their pension. All employees accepted this offer and we are all investing green with our pension sav-ings.

Goal 16: PEACE, JUSTICE AND STRONG INSTITUTIONS

Subgoal 16.1 reduce violence-related deaths: Our products has the core aim to reduce death and increase survival rates. Our product and it has one goal, to prevent the patient to bleed out and die. Mostly a tourniquet will be used by military in battle and the deathrate in

We have our Code of Conduct which we always refer to when cooperat- ing with external partners. Corruption and Bribery are not tolerated at AP Services.

SUSTAINABLE GOALS

-Short and long-term goal scheme

FUTURE GOALS	NOT STARTED	IN PROGRESS	COMPLETED
<p>One Meatless day per week.</p> <p>- This has not yet been implemented. We are working on ways to implement it or implement other things that has a bigger impact than a meatless day for only six employees.</p>	X		
<p>Planting trees and supporting biodiversity.</p> <p>- Our goal is to enhance the biodiversity and make sure there is better terms for wildlife in our area.</p>			X
<p>Avoid any chemicals in maintaining ground facilities.</p> <p>- We will seek environmentally friendly solutions for maintaining our outdoor premisses. This is to make sure we do not poison the underground.</p>		X	
<p>Installation of solar panels in our headquarter.</p> <p>- It is our longterm goal to be able to install solar panels in our HQ. We would like to use the natures energy to run as much of our existence as possible.</p>	X		
<p>Installing electric chargers for electric cars.</p> <p>- The danish Government are highly ambitious about electric transportation. We therefore see it as a natural and responsible goal to install electric powerstations for charging electric cars while at work. This will motivate employees to invest in electric cars.</p>	X		
<p>Invest in Cardboard Shredder for sustainable packaging.</p> <p>- We wish to invest in solutions that contribute to re-using packaging material. To minimize waste in our warehouse.</p>			X
<p>Use sustainable packaging material.</p> <p>- We wish to seek more and more sustainable solutions in our packaging department. Such as papertape and alternatives to plastic wrapping foil.</p>		X	
<p>Internship with focus on sustainability.</p> <p>- We wish to seek the opportunities for making internships with the main fokus on young students that work with SDG's</p>		X	
<p>More focus and pressure on suppliers for sustainable production.</p> <p>- It is our impression that not many of the customers in the medical business has sustainable solutions as their main priority. As long as that is the reality, there wont be many changes. We wish to put a higher attention to sustainable production and packaging upon our suppliers, to hopefully raise awareness on the matter and move the process along.</p>		X
